

**Attn Player:**

You are reading this because you prolly saw some old video about The Hunt or Poochee and Pansy or something IDK LOL. The Hunt was Dad's old ARG from 2010 and it's over now. Now there's a new ARG and it's mine. Since you're here looking for an ARG why not try mine?

**The Nature of the Gangadiddle:**

The Gangadiddle was a big UwU spooey monster that created isolated worlds to trap ppl and eat them and the Hunters solved clues and puzzles and stuff and there was a side quest with some forgettable characters called the s33k3rs (lol 1337sp33k) but in the end they beat the Gangadiddle and everybody lived happily ever after.

Nathan Israel (aka the Hunt Master), the Gangadiddle, and even the cringey s33k3rs were all just characters in that old totally not-real ARG from way back then. Or were they?

**So what's happening now?**

There's a new ARG in town! It's run by me! Who am I? Ohai! I'm The Technician. I'm a 1337 h4xx0r. Just like Nathan, I'm one of Dad's fictional characters who popped out of his head. Unlike Nathan, I'm still freely roaming the countryside. I'm currently working to stop a cult called LSS. I'm also occasionally harrassed by a couple of bumbling knuckleheads who also hate LSS but also hate me. They don't like imaginary ppl coming to life I guess lol. They've been leaving me alone lately so I guess you don't have to worry about them. They're not part of my cool new ARG anyway so forget I even said anything. When Dad did his The Hunt ARG back in the day, he got LSS's attention. And the rest is up to you to figure out.

This is where Nathan talked about how big and spooky the Gangadiddle was but really that old ARG is ancient history. Don't even worry about it. It was all made up.

**Rules and Disclaimers:**

Rules lol?

I mean I guess don't do anything illegal or whatever. Also, if you contact Dad (aka dolst, Rob Dolst) be nice. But don't mention my ARG, the Gangadiddle, LSS, Dream Axiom, or anything about stars being pretty. If you contact Dream Axiom, don't mention LSS.

I am monitoring. If you try me, I **will** intercept your messages and I **will** mock you.

On the next page, there is a cute little puzzle that was directed the original Hunters to a WordPress site at the very beginning of The Hunt. I guess that's why this was called "Commencement"!

The site is still there. Maybe you can learn a little history. Sure it covers The Hunt which I already told you is over. But right after The Hunt ended, some other stuff happened. You can see that there. Or not. Whatever.

Finally, if you haven't already gone to gangadiddle.com you really should. I have so much stuff there with more to come.
